

THE OPEN ACCESS LAB AT ALDERLEY PARK

Affordable Lab Space for start ups;
providing everything you need for
your start up to scale and grow.

CO-WORKING LAB BENCHES

Are you a start up looking for a low-cost lab space to rent? Our co-working lab benches, located within our Open Access Lab, offer flexible space for you to grow and develop your research. With dedicated lab workstations, write-up desks, and communal access to lab kit and essential services, our co-working labs are designed to help start ups scale and mature without the upfront capital.

- Dedicated Co-working Bench £950 pcm + VAT
- Dedicated Tissue Culture Bench and Hood from £1,400 pcm + VAT
- Dedicated Chemistry Bench and Fume Cupboard from £1,400 pcm + VAT
- Monthly membership from £450 pcm + VAT

NOT A START UP? NO PROBLEM

Our Open Access facilities are available on a pay-as-you-go basis with our monthly membership, allowing you to keep your research dynamic and have backup support when you need it.

SCIENTIFIC SERVICES TO SUPPORT YOUR RESEARCH

A range of centralised scientific services to support your research. Our services are available on a pay-as-you-go basis, so you can focus on the science that matters.

Nuclear Magnetic Resonance

500MHz walk-up sample submission NMR facilities are available in support of your research. Once inducted, users can submit samples at any time and receive data files automatically by email.

Thermo Fisher Supply Center

Similar to a digitised vending machine, obtain a comprehensive range of lab consumables while doing your research.

Cytiva Technology Laboratory

Access high-end cellular and protein analysis technologies, including Biacore 8K, Surface Plasmon Resonance, Typhoon Imager, Image Quant 800, and Akta protein purification platforms.

Glass Wash & Sterilisation

Our facility is fully fitted with professional labware washer dryer, autoclave and ultrapure water filtration systems. You can also order custom mobile phases and buffers.

Mass Spectrometry

The Shimadzu Lab at Alderley Park provides supported access to analytical and preparative scale HPLC-MS systems. Specialist expertise is on hand for method development, data interpretation and training.

Waste & Logistics

We'll dispose of your clinical, chemical, and general waste. Plus, zero waste goes to landfill at Alderley Park.

Lab Coat Laundry

Have your lab coat freshly laundered and delivered to your lab.

The facility is equipped with:

2 x Getinge Lancer 1400LX industrial lab Glass Washers capable of:

- Hot or Cold wash cycles to suit your demands
- Acid and Alkaline washes to remove biofilms, proteins, nucleic acids and chemical residues
- Optional De-ionised water rinse
- Dried with hot air (60-115°C)

2 x LTE Scientific 120L Touchclave R

Steam autoclaves are considered the gold standard for sterilisation and utilise high temperature pressurised steam to sterilise a variety of glassware, labware and with liquids (buffers, media, water).

OPEN ACCESS EQUIPMENT AND SCIENCE SERVICES AT ALDERLEY PARK

Thermo Fisher Co-working Equipment - Access the 'must haves' of lab equipment such as centrifuges and incubators as part of your Open Access Lab license, allowing you to instantly carry out fundamental scientific research with state-of-the-art equipment from the word go.

ITEM	TRAINING REQUIRED	BOOKABLE
2 HeraSafe Biosafety cabinet class 2	Lab induction	
2 TDE Series Ultra-Low Temperature Freezers -80C	Lab induction	
2 TSX Series High-Performance Lab Refrigerators -20C	Lab induction	
2 TSX Series High-Performance Lab Refrigerators	Lab induction	
Thermo Scientific VStar PH Meter	Lab induction	
Sorvall LYNX 6000 Superspeed Centrifuge	Lab induction	
3 Multifuge X4 Pro Centrifuge	Lab induction	
3 Fresco 17 Centrifuges	Lab induction	
3 HeraCell Vios CO ₂ Incubators,	Lab induction	
MaxQ 6000 Shaking Incubator	Lab induction	
Digital Dry Baths/Block Heaters	Lab induction	
Digital Sample Rockers	Lab induction	
E-Clip Electronic Bluetooth Enabled Pipettes	Lab induction	
Quantstudio 7 flex QPCR	Yes	Yes

Additional Equipment - Available to authorised users

ITEM	TRAINING REQUIRED	BOOKABLE
Milli Q IQ 7010 Water purifier	Lab induction	
3 New Brunswick Galaxy CO ₂ incubators	Lab induction	
Duct Chemical Fume hood	Lab induction	Yes
Pro-Mat safety cabinet Class 1	Lab Induction	Yes
5 place balance (on bench)	Lab induction	
5 place balance (extracted)	Lab induction	
Top Pan Balance	Lab induction	
Multimode plate reader (SpectraMax M2e) fluorescence and absorbance (cuvette , 96 and 384 well)	Yes	Yes
UV-Vis Spectrophotometer	Yes	Yes
Thermal Plate sealer	Yes	
Sonic bath	Yes	Yes
Water Baths		
Western Blotting Station (gelt tanks and power packs etc)	Yes	Yes
LTE TouchClave R Benchtop autoclave	Yes	Yes
PCR thermal cyclers	Yes	Yes
PrimoVert inverted light microscope with HD camera	Yes	Yes
Communal Calibrated Pipettes (Various Brands)	Lab induction	
Ice machine	Lab induction
